Tom and his cousin took a boat trip. When they got on the boat, every passenger(乘客) should answer the keeper a question. If the passenger answered “yes”, he or she got one gift; if the passenger answered “no”, he or she got two gifts. Tom and his cousin saw all about this. Now it was their turn. The keeper came up to them and asked, “Are you a good sailor?” Tom wanted to get two gifts, so he answered “no” loudly, at the same time he said, “I have never been a sailor, how could I be a good sailor.” The keeper gave him two gifts. His cousin gave the same answer, so he got two gifts, too.

The boat started off. The passengers began to open their gifts. Tom and his cousin did the same. They found that one of the two gifts was a small bottle of drinking water, the other was a seasick tablet(晕船药). Tom had a look at a “yes”-passenger’s gift. His was a nice chocolate. Recently I had a trip to Sydney with my parents. We visited the Wildlife Park.

The Wildlife Park has lots of different animals. Some are native(当地的) to Australia and can only be found there. There are more than 500 animals there, including kangaroos, koalas(考拉) and crocodiles(鳄鱼). They are kept in their natural environment. I like the Wildlife Park better than a zoo. In zoos, most of the animals are in cages(笼子).

We first spent some time with the kangaroos. We could touch and feel them. It was very exciting to be so close to them. There were koalas there, too. They looked very cuddly(令人想拥抱的). Although we couldn’t carry koalas, I could take a photo with one. It is a wonderful souvenir(纪念品) of my holiday in Sydney.

The Wildlife Park has plenty of freshwater crocodiles and saltwater crocodiles. Some of them are very big and scary(吓人的) with huge teeth. I did not want to get too close to them.

There was also a bird show. The keepers(饲养员) showed us different species(种类) of birds. I saw an old parrot(鹦鹉). It could “talk” and made a great impression on me.

I enjoy the trip very much. There was so much to see.

Different weather makes people feel different. It influences health, intelligence(智力) and feelings.

In August, it is very hot and wet in the southern part of the United States. People there have heart trouble and other kinds of health problems during this month. In the Northeast and

the Middle West, it is very hot at some times and very cold at other times. People in these states have more heart trouble after the weather changes in February or March.

The weather can also influence intelligence. For example, in a scientific report, IQ(智商) of a group of students was very high when a very strong wind came, but after the strong wind, their IQ was 10% below. The wind can help people have more intelligence. Very hot weather, on the other hand(另一方面), can make it lower. Students in many schools of the United States often get worse on exams in the hot months of the year (July and August).

Weather also has a strong influence on people's feelings. Winter may be a bad time for thin people. They usually feel cold during these months. They might feel unhappy during cold weather. But fat people may have a hard time in hot summer. At about 18 °C, people become stronger.

Low air pressure(气压) may make people forgetful. People leave more bags on buses and in shops on low-pressure days. There is a "good weather" for health. People feel best at a temperature of about 18 °C.

Are you feeling sad, tired, forgetful, or unhappy today? It may be the weather's problem.

42. What kind of weather can have a bad effect(影响) on health?
- A. Hot and wet weather.  
B. Good weather.  
C. Warm weather.  
D. High intelligence.
43. When may people have more intelligence?
- A. When a rain comes.  
B. When very hot weather comes.  
C. When a strong wind comes.  
D. When low air pressure comes.
44. How may low air pressure make people feel?
- A. Forgetful.  
B. Sad.  
C. Angry.  
D. Tired.
45. What does the writer want to tell us?
- A. Hot and cold weather influences all people in the same way.  
B. Weather influences people's lives.  
C. IQ never changes during weather changes.  
D. There is a good kind of weather for people's work and health.

Most students are seventeen or eighteen years old when they finish high school.

High school students take only four or five subjects each term. They usually go to the same classes every day, and they have homework for every class. After class they do many interesting things.

Do you like eating ice cream? Do you know how ice cream spread in the world?

The earliest ice was eaten in China many years ago. People put fruit juice into ice. Later, this idea spread to Italy. Nero, the emperor of Roma between 54 AD and 68 AD, liked to eat ice between violin lessons. He ordered runners to run to the mountains, get snow and quickly run back to the palace. The snow was mixed with fruit juice and honey.

Around 1660, coffee shops serving ice cream were very popular in Paris. Most of the coffee shops were owned by Italians. The first successful one was opened by a man from Italy named Francesco Procopio.

Ice cream was probably brought to America in the early 1700s and it quickly became the favorite of American presidents. George Washington had ice cream machines in his kitchen.
